## Submitter Information

---

## General Comment

This is in regards to docket identification (ID) number EPA-HQ-OPP-2016-0385.

Please do not renew the license for glyphosate. It is adversely affecting our bodies when we eat food that round-up was used on as a crop, and it is now even being found in our children's vaccines. This product goes right into the blood stream of our children when vaccinated, bypassing all filters of toxins from the intestines, liver and pancreas. I truly want our government to protect its citizens from this toxin. It is not worth the profit made.

Thank you, Laura Staman
